1 / 1 point

An issue that has been in the backlog a long time.

Columns on boards changing color when over the work-in-progress limits.

Moving an issue to a "queue" column on a board.

Correct

This is covered in Lean Principles.

11.

Question 11

When you are troubleshooting a problem using the "5 whys" approach, when should you stop asking "why" questions?

1 / 1 point

When you find the root cause of the problem.

When you find the solution to your problem.

When you have asked five questions.

Correct

This is covered in Lean Principles.

12.

Question 12

Which one of these is an example of a team that uses an approach similar to the scientific method?

1 / 1 point

The team creates a plan for building a product, then implements the plan perfectly.

The team builds a feature, but the data shows that customers do not use it, so they remove it.

The team postpones any changes to the plan until after the initial product release.

Correct

This is covered in Lean Principles.

13.

Question 13

Which one of these Agile Manifesto value statements is most related to empowering the team?

1 / 1 point

Individuals and interactions over processes and tools.

Working software over comprehensive documentation.

Customer collaboration over contract negotiation.

Correct

This is covered in Agile Principles.

14.

Question 14

Which one of these statements is similar to the spirit of the Agile Manifesto?

1 / 1 point

It is important to embrace change.

All communication should be documented.

The product should only be delivered when it meets the customer's specification.

Correct

This is covered in Agile Principles.

15.

Question 15

Which one of the following statements is an Agile Manifesto value statement?

1 / 1 point

Comprehensive documentation before working software.

Customer collaboration over contract negotiation.

Following a plan over responding to change.

Correct

This is covered in Agile Principles.
