1.

Question 1

Which one of the following statements is true?

1 / 1 point

A filter and a quick filter are the same thing.

Filters can not be modified.

A filter has an associated JQL statement.

Correct

This is covered in Filters.

2.

Question 2

Which one of the following statements is true?

1 / 1 point

Quick search only searches issues.

Quick search requires the user to enter JQL.

Recent projects can be accessed using quick search.

Correct

This is covered in Quick Search and Basic Search.

3.

Question 3

How can you modify multiple issues at one time?

0 / 1 point

Execute a search for the issues that you want to change, then select "bulk change...".

Select multiple issues on a board, then edit a single issue.

Select multiple issues in the backlog, then edit a single issue.

Correct

This is covered in Quick Search and Basic Search.

4.

Question 4

Which one of the following statements is true?

1 / 1 point

A JQL query is behind every basic search.

JQL queries can not order search results.

All queries executed in advanced/JQL search can be executed in basic search.

Correct

This is covered in JQL.

5.

Question 5

If your JQL is an empty string, what will the result be?

1 / 1 point

You will see all issues with an empty "summary" field.

There will be no results.

You will see all issues that you have permission to view.

Correct

This is covered in JQL.

6.

Question 6

Which one of these is a benefit of using a function in a query?

1 / 1 point

You don't have to use operators in the query.

The query is likely to be reusable.

The query will return more search results.

Correct

This is covered in JQL.

7.

Question 7

Which one of the following statements is true?

1 / 1 point

Filters can be shared or kept private.

Filters can only be created using advanced/JQL search.

Filters can not be changed once they are created.

Correct

This is covered in Filters.

8.

Question 8

Assume that a board is showing 10 issues. Assume that you then execute a quick filter. Which one of these statements is true?

1 / 1 point

There will be less than 10 issues on the board.

There will be more than 10 issues on the board.

There will be 10 or less issues on the board.

There will be 10 or more issues on the board.

Correct

This is covered in Filters.

9.

Question 9

Which one of the following statements is true?

1 / 1 point

In a kanban project, the original board's filter can not be edited.

Changes to a board's filter will apply to all users who can see the board.

A quick filter and a board's filter are the same thing.

Correct

This is covered in Filters.

10.

Question 10

Which of the following statements is true?

1 / 1 point
